Full Service Project Solutions

Industry Differentiators

Free Support - We are deeply committed to our Clients and offer not only IC employees, but also our client's employees, unparalleled support from our project experts at no additional charge.

Small Company Feel with a Global Reach - Being a smaller company we have the flexibility to listen to our clients, understand their needs and goals and strive to tailor our services to meet their specific needs. We are also a global company and have the knowledge and skills to understand the nuances of working in different regions, cultures, local content issues, and legalities associated with global projects.

Customizable Workshops / Training - Integrated Consulting works with their clients to adjust the training and workshops to client specific business and process needs. Whether one on one, web based or group training, we have the solutions necessary to improve the quality of your project outcomes.

Our Core Business Model - PC/PM is NOT a secondary revenue stream. We pride ourselves on people wanting to join our team to be around other experts.

IC is a 3rd party, no bias contractor - We represent our clients as an extension of their team. This ensures the accuracy of reporting and early identification of true project concerns and needs.
